PROFESSIONAL SUMMARY

Data analyst and aspiring data scientist with formal Master Data Science training (GUVI / IIT-M Pravartak) and recent hands-on experience delivering backend, data and AI features on a production SaaS platform. Built on seven years of hospitality operations and customer service, combining Python, SQL and machine-learning skills with strong business and communication sense to turn raw data into clear, decision-ready insights.

TECHNICAL SKILLS

Languages & Databases: Python, SQL, PostgreSQL

Data Analysis & ML: Pandas, NumPy, Scikit-learn, XGBoost, EDA, Feature Engineering, Statistical Analysis, Deep Learning (TensorFlow/Keras)

Visualisation & BI: Power BI, Tableau, Matplotlib, Seaborn, Streamlit

Tools & Platforms: Jupyter, Git & GitHub, FastAPI, Selenium, AWS (S3, EC2 — basics), Claude / Anthropic API

Core Strengths: Customer Service, Business Operations, Communication, Problem-Solving

PROFESSIONAL EXPERIENCE

AI / Software Engineer **2025 – 2026**

Chakshi — Legal-Tech AI SaaS Startup

- Delivered 150+ merged pull requests across backend, data, AI and release engineering on a production legal-AI platform, working in Python and SQL/PostgreSQL with AI-assisted (agentic) development workflows.
- Designed and built an end-to-end observability platform — metrics, logging and alerting dashboards — giving the team real-time visibility into system health and usage data.
- Improved an AI retrieval (RAG) system's answer and citation quality and added evaluation checks using the Claude / Anthropic API; strengthened data isolation and automated reporting.

Operations Manager **2019 – 2024**

Family Hospitality Business — Mettupalayam, Coimbatore

- Managed day-to-day operations, sales and customer relations for a family-run hotel business, improving service efficiency and cost awareness through data-informed decisions.

Front Office Assistant **Aug 2017 – Dec 2018**

Black Thunder Resort (Leisure Hotel) — Mettupalayam, Coimbatore

- Delivered front-desk guest service, reservations and coordination in a high-footfall resort; commended for work and conduct.

DATA & ANALYTICS PROJECTS

AI-Driven Lead Quality Scoring System — ***Python, XGBoost, FastAPI, Streamlit***

- Built an end-to-end pipeline predicting B2B lead-conversion probability on a 5,000+ lead dataset (~12% conversion), converting model output into a 0–100 score and Hot/Warm/Cold priority tiers.
- Engineered business-driven features and handled class imbalance; evaluated with ROC-AUC and recall instead of raw accuracy to protect revenue impact.

Data-Driven Stock Market Analysis — ***Python, SQL, Power BI, Streamlit***

- Cleaned and analysed Nifty-50 market data across sectors (volatility, cumulative returns, sector performance) and delivered interactive dashboards for investment decision support.

Multi-class Fish Image Classification — ***Python, TensorFlow/Keras, Transfer Learning***

- Benchmarked six CNN architectures (custom plus VGG16, ResNet50, MobileNet, InceptionV3, EfficientNetB0); EfficientNetB0 gave the best validation performance; deployed a Streamlit app with confidence scores.

EDUCATION & CERTIFICATIONS

Master Data Science Program — GUVI (IIT-M Pravartak / HCL) | **Sep 2024 – Feb 2025** · Credential ID: dR4q94e2y3t07516L1

B.Sc. Catering Science & Hotel Management — PSG College of Arts & Science, Coimbatore (Bharathiar University) | **2013 – 2016**

Job Simulations (Forage): British Airways — Data Science · TATA — Data Visualisation · AWS — Solutions Architecture **(2025)**

GeeksforGeeks: GATE Set Go — CSE / Data Analytics (course completion)
